

# Mays Taleeb

## Personal Information

**Date of birth:** 1998/5/10

**Address:** Abwien, Ramallah

**Phone number:** 0595824647

**Email address:** maystaleeb98@gmail.com

**Web:** <https://www.facebook.com/mays.taleb.98/>

## Profile

I want to apply for this job to bring my strong sense of dedication, motivation and responsibility to your company, and to benefit from this experience.

### Some projects I did

#### 1- PROJECT 1 | Interface

2019

Design Robot playing football controlling by using a Mobile Application, Using Arduino Language.

#### 2- PROJECT 2 | Data Base

AT 2018

Design an application for electric machines store, which is store the data of all the products that are available. Also, the application print bill for a customer and report for the manger.

#### 3- PROJECT 3 | ANDROID

2019

Design a Supermarket Mobile app to facilitate the online purchase process.

#### 4- PROJECT 4 | ARTIFICIALINTELLIGENCE

2018

Use the Constraint Satisfaction Problems "CSP" Algorithm to distribute the examiners for all graduation projects in optimal way, based on a given constraints.

Use Decision Tree and Naïve Biase by use machine learning tools " Weeka " for model generation and testing the models for test data and reporting on the results.

#### 5- PROJECT 5 | Graduation Project

2020

Recommendation application which is shopping app that provides users the ability to manage their daily purchases to admin and customer, and the recommendations to the customer helps him/her to buy products that s/he may need but s/he did not pay attention to, which makes the shopping operation much easier and enjoyable. we used android and firebase as backend&database to do this app.
